Golfin' Around Events

of San Mateo, California has formed a Strategic Partnership with a firm located in Florida to offer local Bay Area Charities an opportunity to host a Golf Tournament without the expense of putting on a "Green Grass Tournament".

After months of research, we have discovered that several Charities, both local and national, have had to cancel their Fundraising Golf Tournaments for various reasons directly related to the high cost of putting on a Golf Event and the fact that players and sponsors who in the past donated hundreds if not thousands of dollars to help with the costs have had to commence doing so. Our research has shown that this has caused financial

hardship for various Charitable Organizations who once counted on Golf Tournaments and related events to raise considerable funds for their cause. In our efforts to find a way to still allow Charities to raise money without the huge cost of hosting a Golf Tournament, we have decided that "Fantasy Golf Tournaments" may well be the perfect fit!
